M.S. Organization Studies

Brigham Young University, Department of Psychology—Provo, UT 2016
B.S. Psychology, Minor: Spanish

RESEARCH

My research explores how people find significance and purpose in the work they do, especially as they attempt to develop new ideas and products. I study how these phenomena—meaningful work and creative work—unfold and are experienced over time, as well as how individuals and groups handle the tensions which come from developing new ideas and pursuing worthwhile work. My methodological approach is primarily field-based, using qualitative methods.
